70 ft Lightweight Slickline Wireline Mast

This lightweight Slickline/Wireline Mast is designed for use as a self-supporting structure for slickline/wireline operations. The unit is simple to operate, robust and lightweight and has a 7000 lbs line pull capacity.

The mast is positioned with the help of removable jacking castors, and hydraulically extended. The mast can be setup by two experienced operators in around few minutes. It is designed for free standing use, but should be secured to the deck with additional guy ropes if used in winds above 30 mph.

Model	*Description*
Operational Dimensions	9.5 m Length x 9.3 m Width x 21.7 m Height
Transporting Dimensions	7.7 m Length x 2.6 m Width x 2.1 m Height
Gross Weight	1300 Kg, (2866 lbs)
Features	• Robust Square & Tubular Profile Construction • High Grade Aluminum Construction • Hydraulically Operated Boom-Locking Pins • Top Wireline Sheave Supplied with mast • 4-point Lift • Hydraulically Erected • Guy Wires Supplied with tensioners • Emergency Shutdown System • Two Jacking Castors • Additional Electrical Power-Pack to Provide Hydraulic Power System.
Max. Wireline Pull on line	7000 lbs
Max. SWL (Safe Working Load)	14000 lbs
Max. Rigging Up/Down Wind Speed	30 mph (miles per hour)
Max. Unguyed Operational Wind Speed	35 mph (miles per hour)
Max. guyed Operational Wind Speed	70 mph (miles per hour)

No.721, phase 2, Industrial zone 2 Andimeshk Road, Ahvaz, Khuzestan
