FALIZ PAJOUHESH PARS CO.

F11.A

HEAVY VEHICLES FIRE TRUCK

Heavy firefighting vehicles (over 16 t) are intended for firefighting and rescue interventions in all conditions. There are different versions of this vehicle: on-road vehicles (intended for driving on hardened surfaces) and off-road (intended for interventions in areas with difficult access). The high reliability of our vehicles is guaranteed by top quality equipment from national and foreign brands, and cooperation with leading truck manufacturers.

Manufactured based on the NFPA standard for all tanks.

Its stainless-steel tank construction and heavy-duty chassis are built for long service life under demanding fire-suppression duty in both urban and industrial settings.

Water Tank

* Capacity: 8000 liters (auxiliary capacity 2000 liters)
* Material: stainless steel 316, thickness 4 mm

Water Pump

* Flow rate: 6500 lit/min
* Pressure: 25 bar

Foam Tank

* Material: stainless steel 316
* Capacity: 4500 lit

Foam Mixing System

* Capacity: 160 to 800 lit/min
* Electronic control
* Gear pump, material: stainless steel, 2 mm

Monitor

* Material: stainless steel, 2 mm
* Rotation: 360°

Spray Powder System

* Electronic installation and control

No.721, phase 2, Industrial zone 2 Andimeshk Road, Ahvaz, Khuzestan
