FOMATIC SEMI-HEAVY FIREFIGHTING VEHICLE - WATER, FOAM & DRY POWDER

Semi-heavy firefighting car, featuring tanks for water, foam and powder. Its low weight and speed make it suitable as a quick-reaction vehicle in fire-extinguishing operations, for use in city and road operations and in various industries.

Designed and manufactured based on classic capacity, the NFPA standard, the IPS standard, and according to users' requirements for different applications.

Its compact footprint and fast response time make it a practical first-response option for municipalities, industrial sites and facilities with limited garage space.
