TURNTABLE LADDER M68L

The FALIZ Group Turntable Ladder “M68L” is a self-propelled hydraulic ladder designed for effective rescue and firefighting operations from high-rise buildings, giving access to high-rise locations.

When fully extended, the ladder reaches a maximum working height of 68 m from ground level, and is suitable for any intermediate height with the possibility of vertical and horizontal simultaneous movement without mutual interference.

The platform combines a stable hydraulic drive with precise, responsive ladder control, supporting demanding rescue and firefighting tasks at height on both single-cab and double-cab chassis.

Dimensions

* Valid for both Single Cab & Double Cab types
* Overall length: 13 m
* Overall width: 2.50 m
* Overall height: 4.10 m

Weights (approx.)

* G.V.W: 40,000 kg
* Operational weight: 32,500 kg

Performance (approx.)

* Maximum speed: 100 km/h

Turntable Ladder

* Working height: 68m from ground level
* Rotation: 360°
* Elevation: -10° up to +75°
* Ladder sections: 7 telescopic sections

No.721, phase 2, Industrial zone 2 Andimeshk Road, Ahvaz, Khuzestan
