FALIZ PAJOUHESH PARS CO.

F2.C

Special Wireline Tools

Description

Purpose-built wireline tools engineered for non-standard or application-specific downhole tasks that fall outside routine toolstring components.

Custom-designed and machined to the well's specific bore, connection and operating conditions.

Applications

- Non-standard downhole interventions
- Custom well configurations
- Specialized diagnostic and service runs

Features:

- Application-specific custom design
- Precision-machined components
- High-strength alloy construction
- Corrosion-resistant coating
- Compatible with standard toolstrings
- Prepped, primed and painted finish

Options:

- Fully custom design on request
- Custom bore and connection profile
- Alternative materials on request
- Custom paint / coating spec

Build Notes:

Dimensions, ratings and materials are configured per project. Contact us with your application details for a tailored specification sheet.
